

ABOUT LADDER

Ladder helps young people in Australia aged 16 – 25 to break the cycle of homelessness and achieve their potential

Ladder is an independent non-profit organisation established in 2007 by AFL players who wanted to do more about the issue of youth homelessness in Australia

We work with young people who are at risk or have experienced homelessness

Ladder puts young people at the forefront of everything we do

We focus on a young person's strengths and run programs which build on their talents and capabilities
